

Wall Decor Appliques Installation Instructions

Applique

Product Contents:

Applique

Tools:

Depending upon the fastening system your wall material requires, the following tools may be required:

- Box cutter
- Scissors
- Screwdriver or drill

1. Establish wall location.
2. Determine the best fastener system for your type of wall surface.
3. Apply/attach applique according to the instructions of the fastener system.

Please note, your specific circumstances will vary, but in many circumstances products found at Lowe's or Home Depot can work. For example, "foam mounting tape" manufactured by 3M, Scotch or Gorilla with 30 pound holding weight can work (it is critical to use the foam mounting tape not the double-sided thin tape for carpets. Follow the manufacturer's instructions to secure the applique properly to your wall.
